WORK EXPERIENCE

Cognizant

Chennai, Tamil Nadu, India

Human Resources Executive & Senior Coordinator

Sep 2017 – Present

- Orchestrated comprehensive bench management and talent supply chain operations for global resources, maximizing bench utilization rates and systematically preventing organizational revenue leakage.
- Directed end-to-end lateral and contractual hiring pipelines, executing high-volume recruitment initiatives and significantly reducing external agency spend through optimized, in-house sourcing strategies.
- Streamlined payroll administration and complex invoice processing workflows across multiple accounts, ensuring flawless payroll execution and strict SLA adherence.
- Championed statutory compliance protocols and coordinated rigorous internal HR audits, consistently securing zero non-conformities across consecutive review cycles.
- Integrated generative AI tools (Claude, ChatGPT, Gemini) into daily HR workflows, automating complex document generation and communication processes to drastically reduce operational turnaround time.

Tech Mahindra

Greater Chennai Area, India

Senior Consultant

Jan 2013 – Jul 2017

- Forecasted resource supply and demand metrics across key global accounts, balancing deployment schedules and proactively mitigating critical talent shortages.
- Administered legal and statutory compliance protocols during organizational transitions, effectively mitigating institutional risk and ensuring the seamless, compliant execution of layoff amendments.
- Quantified HR metrics through advanced data analysis, delivering strategic workforce planning insights directly to senior leadership teams.

Customer Broadcast P Limited

Greater Chennai Area, India

Process Executive

Dec 2011 – Jul 2013

- Standardized operational workflows and provided cross-functional support, maintaining strict adherence to daily productivity and quality SLAs.
